### SUPER ADVANCED VERSION

◆ BALLPARK EFFECT - HOMERUNS - Ignore all readings that have a ◆ to the left of it. Instead, read the results found underneath the ◆ symbol of the ballpark effects card. To obtain results, refer to the appropriate home stadium and the batting stance (L = lefty or R = righty) of the hitter. As in the advanced version, players with weak power (W) may not hit homeruns. In this situation, change all homerun results to single\*\*.

△ Refer to the second reading (in *Italics*) under the number. Ignore the initial reading. Ballpark results (American and National Leagues) are based on a three year study. However, results for teams with revised ballpark dimensions and extreme weather conditions are only based on present data.

\* Robbing HR Rule (14.5) - An \* to the left of the team name indicates that a home run CANNOT be robbed for a lefty batter. An \* to the right of the team name indicates that a home run CANNOT be robbed for a righty batter. Note, this applies to all HR/Flyout splits, not just ballpark home run chances.
