8. Harris, cf
9. Suarez, c

For more realistic league play, when possible, allow only the pitchers preceded by an asterisk to start once every four games (3-game rest between starts). All other starting pitchers should start once every 5 games (4-game rest between starts). We also suggest that all players be restricted to their actual number of at bats or innings pitched, especially players with limited at bats or innings pitched.

The card for Bob Didier (Det) is based on his 1971 statistics due to the extreme performance in limited at bats in 1973. This was also done for the original 1973 card release. For added realism, Duke Sims should get 252 at bats for Detroit before being traded to NY (AL) in order to limit Didier to his real life 22 at bats.
