If your game's instructions refer to the scoreboard's location as the back cover, please disregard this and refer to the strategy chart instead.

Any American League batter may be placed in the lineup as a designated hitter. Players lacking fielding positions may also be used in a pinch-hitting capacity. Matt Alexander and Larry Lintz may be added to the OAKLAND A's roster as baserunners only with the following ratings — stealing — A and base running 1—17.

In American League play only, an injury occurs to the pitcher in the field when a white 6 and a red dice total of 12 is rolled, only when the DH is at bat. This rule applies only to the American League.

Advanced Game Stealing — Catcher's Throwing Arm Included — a catcher's throwing arm will affect all steal attempts. Simply add or subtract the number in parenthesis following the catcher's fielding rating from the steal rating of the involved baserunner. If the defensive manager elects to hold the runner on base the following deduction is made, based on the stealing rating of the involved baserunner:

AAA	AA	A	B	C	D	E
-1	-3	-3	-4	-4	-5	-5

For example, if a B baserunner attempts to steal second base against a catcher with a throwing arm of -1 while being held, his safe possibilities are 1—8 instead of 1—13. Please apply the groundball ++ rule as stated in the advanced game stealing section when runners are being held.

For most realistic League play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3 game rest between starts). All other starting pitchers should start once every 5 games (4 game rest between starts). Also, we suggest that all 96 additional players be used in secondary roles.

In addition to the top 480 players, we are releasing for our most avid baseball fans, 96 additional players or 4 players per team from the 1976 season. By adding these players to the rosters of the top 480 players, you can have 24 players per team. It must be noted that several of the additional player cards are based on insufficient 1976 statistical data. The 96 additional players may be purchased as a separate unit only for the special price of \$2.70. Individual players will not be sold from this unit. A listing of all 96 additional players (48 additional players—American League and 48 additional players—National League) may be found on this roster sheet.

EXPANSION TEAMS INFORMATION

Seattle and Toronto may be purchased as a unit separately (price is \$1.00 for both teams - 40 players) from the current 24 team set. You must also purchase the 96 additional players as certain players from current American League teams will be shifted to the expansion teams creating open roster spots. These open roster spots will be filled by players from the 96 additional players and transfers from Seattle and Toronto. Some of the Mariner and Blue Jay player cards may be based on estimated potential. If you desire to order the expansion teams, just write in their team names on coupon #2 of the Strat-O-Matic Extras Flyer.
