Simpson, J.  
Zisk, R.—DH only

ADVANCED FIELDING CHART INSTRUCTIONS

The same referral process for the regular fielding chart applies to the advanced fielding chart with one major exception—certain split card draws require a dice roll. Refer to the E rating of the involved defensive player, found on his card opposite his present playing position. Roll three dice referring to the defensive player's E rating section of the advanced fielding chart to determine outcome of play. If a reading yields a double result (i.e. E(2) 1-4, gbA 5-6,) the white die's value determines the correct result. For example, if a reading yields E(2) 1-4, gbA 5-6, refer to the present white die's reading. If the white die's reading is 1, 2, 3 or 4, a 2 base error E(2) has occurred. If the white die's reading is 5 or 6, a groundball A (gbA) has occurred.

ADDITIONAL ABBREVIATIONS

E(1) Error — batter is safe at first, runners advance 1 base.  
E(2) Error — batter is safe at second, runners advance 2 bases.  
E(3) Error — batter is safe at third, runners score.  
\*\*\* Runners advance 3 bases.  
& followed by  
PB Passed Ball  
POP Popout

"T" RATINGS

If second or third base is successfully stolen, and a split card reading of 1, 2 or 3 is drawn, draw a second split card. Refer to the defensive catcher's card for his "T" number(s). If the drawn split card number is within the range of the catcher's "T" numbers, a throwing error by the catcher has occurred, allowing the baserunner(s) to advance one additional base. No throwing error occurs if the drawn number is not listed among the defensive catcher's "T" number(s).

56 ADDITIONAL PLAYERS — AMERICAN LEAGUE

**BALTIMORE** — Ayala, B.; Ford, D.; Morales, J.; Stoddard, T.  
**BOSTON** — Burgmeier, T.; Campbell, B.; Crawford, S.; Hancock, G.  
**CALIFORNIA** — Clark, B.; Jefferson, J.; Kison, B.; Sconiers, D.  
**CHICAGO** — Hickey, K.; Koonsman, J.; Kuntz, R.; Molinaro, B.  
**CLEVELAND** — Brennan, T.; Charboneau, J.; Dybzinski, J.; Garland, W.  
**DETROIT** — Fahey, B.; Lopez, A.; Papi, S.; Summers, C.  
**KANSASCITY** — Chalk, D.; Hammaker, A.; Hurdle, C.; Wright, J.

**MILWAUKEE** — Augustine, J.; Bando, S.; Cleveland, R.; Edwards, M.  
**MINNESOTA** — Hrbek, K.; Sofield, R.; Verhoeven, J.; Washington, R.  
**NEW YORK** — Brown, B.; Frazier, G.; LaRoche, D.; Murcer, B.—DH only  
**OAKLAND** — Drumright, K.; Moore, K.; Owchinko, B.; Page, M.—DH only  
**SEATTLE** — Beattie, J.; Drago, D.; Gleaton, J.; Serna, P.  
**TEXAS** — Babcock, B.; Kern, J.; Poquette, T.; Schmidt, D.  
**TORONTO** — Barfield, J.; Bombard, M.; Garvin, J.; Wells, G.

If your game's instructions refer to the scoreboard's location as the back cover, please disregard this and refer to the strategy chart instead.

Any American League batter may be placed in the lineup as a designated hitter. Players lacking fielding positions may also be used in a pinch-hitting capacity.

In American League play only, an injury occurs to the pitcher in the field when a white 6 and a red dice total of 12 is rolled, only when the DH is at bat. This rule applies only to the American League.

**Advanced Game Stealing — Catcher's Throwing Arm Included** — a catcher's throwing arm will affect all steal attempts. Simply add or subtract the number in parenthesis following the catcher's fielding rating from the steal rating of the involved baserunner. If the defensive manager elects to hold the runner on base the following deduction is made, based on the stealing rating of the involved baserunner:

AAA	AA	A	B	C	D	E
-1	-3	-3	-4	-4	-5	-5

For example, if a B baserunner attempts to steal second base against a catcher with a throwing arm of -1 while being held, his safe possibilities are 1-8 instead of 1-13. Please apply the groundball ++ rule as stated in the advanced game stealing section when runners are being held.

### 48 ADDITIONAL PLAYERS — NATIONAL LEAGUE

<b>ATLANTA</b> — Hanna, P.; Harper, T.; Miller, E.; Walk, B. <b>CHICAGO</b> — Griffin, M.; Tabler, P.; Thompson, S.; Waller, T. <b>CINCINNATI</b> — Biittner, L.; Edelen, J.; Householder, P.; Leibrandt, C. <b>HOUSTON</b> — Heep, D.; Pittman, J.; Smith, B.; Thon, D. <b>LOS ANGELES</b> — Niedenfuer, T.; Sax, S.; Smith, R.; Sutcliffe, R. <b>MONTREAL</b> — Francona, T.; Jackson, G.; Manuel, J.; Sosa, E.	<b>NEW YORK</b> — Cubble, M.; Hausman, T.; Leach, T.; Youngblood, J. <b>PHILADELPHIA</b> — Davis, D.; Davis, M.; Proly, M.; Unser, D. <b>PITTSBURGH</b> — Cruz, V.; Montanez, W.; Romo, E.; Stargell, W. <b>ST. LOUIS</b> — Littell, M.; Rincon, A.; Roof, G.; Sanchez, O. <b>SAN DIEGO</b> — Curtis, J.; Evans, B.; Moreno, J.; Urrea, J. <b>SAN FRANCISCO</b> — Hargesheimer, A.; Lavelle, G.; Stennett, R.; Wohlford, J.
--	--

For most realistic League play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3-game rest between starts). All other starting pitchers should start once every 5 games (4-game rest between starts). Also, we suggest that all 104 additional players be used in secondary roles.

In addition to the top 520 players, we are releasing for our most avid baseball fans 104 additional players or 4 players or more per team from the 1981 season. By adding these players to the roster of the top 520 players, you can have 24 players or more per team. It must be noted that several of the additional player cards are based on insufficient 1981 statistical data. The 104 additional players may be purchased as a separate unit only for the special price of \$3.45. Individual players will not be sold from this unit. A listing of all 104 additional players (56 additional players—American League and 48 additional players—National League) may be found on this roster sheet. With each purchase of 104 additional players, two extra players will automatically be included free of charge (our Strat-O-Matic flyer does not mention this free bonus). As these players do not have a team name indicated on their cards, you must write in the team name. Below are the extra players mentioned, teams played for (last team mentioned is team of record at season's end) and number of games played.

Doug Bair	— 24 Cincinnati	11 St. Louis
Rafael Landestoy	— 35 Houston	12 Cincinnati

We strongly suggest that you restrict the following players to approximate the actual at bats or innings pitched as their cards are not a true reflection of their hitting or pitching abilities. If they are used excessively, they will alter the overall performance of their respective teams. The at bats and innings pitched are based on a partial season (approximately 67%). If more or less games are played, adjust accordingly.

Bob Bailor (NY Mets)  
 Heity Cruz (Chicago Cubs)  
 Jim Essian (Chicago White Sox)  
 John Harris (California)  
 Jeff Leonard (Houston)  
 Larry McWilliams (Atlanta)  
 Sam Mejias (Cincinnati)  
 Rick Monday (Los Angeles)  
 Bill Stein (Texas)  
 Denny Walling (Houston)

We suggest that Johnny Bench catch in only 7% of the total games that Cincinnati plays.

INSTRUCTIONS FOR SUPPLEMENTARY STEALING SYSTEM

When a batter becomes a baserunner or if there is an on base change (ex: Runner on second, batter grounds into forceout, runner advances to third), the defensive manager IMMEDIATELY indicates whether the lead runner is to be held on as long as he remains at that specific base. For example, with a runner at first base, the defense may indicate that a runner will be held on for each succeeding out. If so desired, the defensive manager may split his instructions. He may hold the runner on in two out situations and not hold the runner on in zero and one out situations. Of course, once the runner(s) relinquishes their base(s), the defensive manager's holding on instructions are automatically voided. The defensive manager issues holding on instructions only once for each base running situation and always immediately and prior to an attempted steal. Stealing second base is achieved by rolling two dice and referring to the dice frequency roll column. If the dice results fall within dice frequency roll range of potential stealer, runner has established a good lead and must steal. If dice roll falls outside range of potential stealer, runner has failed to establish a good lead. At this point, the manager may reverse his decision and not steal. To attempt a steal the offensive manager selects a split card number and refers to the first rating number if runner has a good lead, or the second rating number if his runner has failed to establish a good lead. When using the first rating number, subtract or add in catcher's throwing arm and -2 if runner is "held on." When using the second rating number, subtract or add in catcher's throwing arm and -4 if runner is held on. For Dawson of Montreal, if he is "held on" and the opposing catcher is a -1, and a dice roll of 5 occurs, his chances are 1-16 to steal second base (19 (-1) (-2) = 16). If the dice results were 8, his chances are 1-9 (14 (-1) (-4) = 9).

Only one dice frequency roll may be attempted with each base running situation. If a manager fails to achieve a good lead with his only dice roll, he may yet elect to steal second base. This is accomplished by referring to the runner's second number rating only, drawing a split card and applying all the necessary additions and deductions.

An attempted steal of third base is slightly different. In order for the runner to steal, he must achieve a good lead. If the manager's dice roll results fail to fall within the dice frequency range of the would-be stealer, he may not attempt a steal of third base. If the dice roll results fall into the player's range, select the top split deck card and refer to the second rating number (No. 14 for Dawson of Montreal) of the potential stealer. Deduct -4 if the defensive manager had indicated that he was "holding runner on," and also, take into account the catcher's throwing arm.

An attempted steal of home is exactly the same as stealing third base with two exceptions: Subtract -7 from baserunner's second rating and do not account for catcher's throwing arm.

If a player has a dash located in his rating column, he may not attempt a steal. If a reading containing a P (example 10P) occurs in the dice frequency roll, the baserunner is picked off base. For double steal results, refer only to the lead runner's rating.
