For most realistic league play, when possible, allow only above pitchers preceded by an asterisk to start once every four games (3 game rest between starts). All other starting pitchers should start once every 5 games (4 game rest between starts). We also suggest that all players be restricted to their actual number of at bats or innings pitched. Overusing players such as Keith Miller of NY(NL) will distort the team statistics. Players such as Miller should be used in secondary roles only. The following eleven players do not have a team name on their cards. You must write in the team name. Below are the players mentioned, teams played for and number of games played. With the exception of Randy O'Neal and Phil Niekro, you will find these players on the first team mentioned. Niekro will be found on Toronto. A + denotes players who played during the last third of the season with the indicated team.
