For most realistic league play, when possible, allow only pitchers preceded by an asterisk to start once every four games (3 game rest between starts). All other starting pitchers should start once every 5 games (4 game rest between starts). We also suggest that all players be restricted to their actual number of at bats or innings pitched. There are a number of players whose fielding ratings differ in the basic and advanced games.

There are forty one players with total cards based on combined statistics from both leagues. Some players will have three cards in the set; an American League card, a National League card and a total card, while other players will have two cards or one card. These cards are found in the additional players and will have IL following their name. Listed below are the players and the games played with each team. Statistics will vary according to performance for each team. Last team mentioned is team of record at season's end.

Benny Agbayani has different fielding ratings in leftfield for Colorado and Boston. Dan Reichert of Kansas City and Bud Smith of St. Louis remain on these teams even though they were traded at season's end. They never played for Tampa Bay and Philadelphia respectively.

Mike Bordick is rated e1 at shortstop. When playing super advanced rules refer to the following : RP E1 E2

There is one player who does not have a team name on his card. You must write in the team name. Below is the player mentioned, teams played for and the number of games played with each team:
Bill Mueller Chicago(NL) - 103g (353 abs) San Francisco - 8g (13 abs)
