Only pitchers preceded by an asterisk may start once every four games (3 game rest between starts). However, for most realistic play all starting pitchers should start once every five games (four game rest between starts). We also suggest that all players be restricted to their actual number of at bats or innings pitched, especially players with limited at bats or innings pitched.

There are forty three players with total cards based on combined statistics from both leagues. Some players will have three cards in the set; an American League card, a National League card and a total card, while other players will have two cards or one card. The number following a player's name indicates the number of extra cards. These total cards are found in the additional players. Listed below are the players and the games played with each team. Statistics will vary according to performance for each team. Last team mentioned is team of record at season's end.
