Only pitchers preceded by an asterisk may start once every four games (3 game rest between starts). However, for most realistic play all starting pitchers should start once every five games (four game rest between starts). We also suggest that all players be restricted to their actual number of at bats or innings pitched, especially players with limited at bats or innings pitched.

There are sixty nine players with total cards based on combined statistics from both leagues found in the Additional Players. Some players will have three cards in the set; an American League card, a National League card and a total card, while other players will have two cards or one card. The number following a player's name in parentheses (x2, x3) indicates the number of cards more than one.

RULE CHANGE FOR 2018 SEASON:

- 27.53 If a pitcher who does not have a rating as a starter must start a game, give him a POW inning of 1. (Previously the rating would have been "4").
- 27.54 For the year 2000 onward: The maximum number of innings a starter can pitch without fatigue is his POW inning, plus 2. For the years prior to 2000: The maximum number of innings a starter can pitch without fatigue is his POW inning, plus 3.
