** Indicates fastbreaking teams. These teams run the fastbreak offense at every opportunity.

* Indicates teams that run a patterned offense. These teams use the fastbreak only about a third of all possible opportunities. All other teams fastbreak about two-thirds of all possible opportunities. All teams will perform realistically when the suggested offenses are used accordingly. It should be noted that a fastbreak offense incurs more turnovers. Therefore, it should seldom be used when holding a lead late in the game.

If BAL appears in the Blocked Section of the X Column, assume all missed shots to be blocked.

In the good section of the X Column, disregard the bottom half of the I (Inside and Rebound Shot) Section unless there is a reading.

The following regular players and additional players should be restricted to the number of games found in parentheses:
