The number following the player's name is his three-point frequency rating. Please refer to automatic three-point shots found in the super-advanced rules.

\*\* Indicates fastbreaking teams. These teams run the fastbreak offense at almost every opportunity.

\* Indicates teams that run a half-court offense. These teams use the fastbreak only about a third of all possible opportunities. All other teams fastbreak about two-thirds of all possible opportunities. All teams will perform realistically when the suggested offenses are used accordingly.

If BAL appears in the Blocked Section of the X Column, assume all missed shots to be blocked.

**PLEASE NOTE:**

- (1) When attempting a 3-Pt. Shot, if the dice roll is listed in 3-Pt. Replay, follow normal replay rules. Otherwise, 3-Pt. shooting rules apply.
- (2) On the players' cards and on the advanced defensive cards the abbreviations O, P, I, F replace outside shot, penetration shot, inside shot and rebound shot, and fastbreak shot respectively.
- 3) That stars replace asterisks under shooting tendency on the players' cards.

**The "RODMAN RULE"**

Due to the outstanding rebounding that Dennis Rodman of San Antonio performed last season we are creating a specialized rule to be used whenever Rodman is in the game. This rule only applies to Rodman and only for his cards based on the 1991-92, 1992-93 and 1993-94 seasons. Whenever Rodman is in the game and a rebounding reading occurs that begins with the word "Any" (for example, "Any Offensive player 7 or more . . .") Rodman automatically gets the rebound REGARDLESS IF HE IS ON OFFENSE OR DEFENSE. Note that he overrides any opposing player who would otherwise qualify to receive the "Any" rebound. To reiterate, any time Rodman is in the game and a rebound reading starting with "Any" occurs, it's Rodman's ball. This rule will make Rodman as valuable as he was in real life, and will allow Rodman to generate accurate rebounding statistics.

**Please note that there are some players who are rated 1 shooters (advanced game) that have replays on their card.**

#### STRAT-O-MATIC RULE CHANGES

REPLACEMENT FOUL ASSIGNMENT CHART - Use the chart to the right instead of the one located in the Super-Advanced section of the instruction book. This new chart improves the statistical accuracy of the game.

REPLACEMENT RULE FOR "ADDITIONAL THREE-POINT SHOTS ALLOWED" CHART - Additional three-point shots are allowed as follows (ignore the chart found in the Super-Advanced rules in the instruction book): (1) Anytime a team trails by 10 or more points they may take unlimited three-point shots. (2) In the last 10 minutes of the game if a team is trailing by more points than time left (for example, down by 6 with 5 minutes to go), they may take unlimited three-point shots. (3) In the last two minutes of the game, both teams can take unlimited three-point shots, regardless of the score. Note that the term "unlimited" is still governed by the other rules of the game. In other words, a player must ALWAYS be positioned outside in order to take a three-point shot. Also, when using the solitaire rules to determine if a player should penetrate or shoot outside, you should place higher emphasis on these "unlimited" three-pointers - the player should be able to shoot a three-pointer without rolling to determine if he should penetrate (if the three-point shot is desirable, that is).

#### FOUL ASSIGNMENT CHART

3	Right Guard	Center	Right Guard
