The number following the player's name is his three-point frequency rating. Please refer to [automatic three-point shots](#) found in the super advanced rules.

** Indicates fastbreaking teams. These teams run the fastbreak offense at almost every opportunity

* Indicates teams that run a half-court offense. These teams use the fastbreak only about a third of all possible opportunities. All other teams fastbreak about two-thirds of all possible opportunities. All teams will perform realistically when the suggested offense are used accordingly.

If BAL appears in the Blocked Section of the X Column, assume all missed shots to be blocked

PLEASE NOTE:

- When attempting a 3-pt. shot, if the dice roll is listed in 3-pt. replay, follow normal replay rules. Otherwise 3-pt. shooting rules apply.
- On the players' cards and on the advanced defensive cards the abbreviations O, P, I, F replace outside shot, penetration shot, inside shot and fastbreak shot respectively.
- That stars replace asterisks under shooting tendency on the players' cards.

PLAYING SAFE RULE

| |
|------------------|
| 7: blank |
| 6: 2-6 |
| 5: 2-6,11 |
| 4: 2-6,10 |
| 3: 2-7,10 |
| 2: 2-9 |
| 1: 2-62 |

When "Playing Safe" all readings of F(2) should be considered automatic baskets by the offensive player with no foul being committed by the defensive player. In addition, the defender's X-Column defense rating should be downgraded 1 level. The levels are listed in the table at the left:

To illustrate, say a player who is "playing safe" has a check against his "O" X Column. Also say that the reading found in the GOOD section is "2-6, 11". Looking at the table above that is level 5. His level gets reduced by one to level 4. So use "2-6, 10" as his X Column GOOD reading instead of "2-6, 11".

IMPORTANT NOTE REGARDING BLOCKS: This rule overrides the BLKD row in the X Column. So in the above case, say the defender has "7-60" in the O BLKD section of the X Column. In that case 10 is no longer a block, instead it is an X as described above.

REPLACEMENT FOUL ASSIGNMENT CHART - Use the chart to the right instead of the one located in the Super-Advanced section of the instruction book. This new chart improves the statistical accuracy of the game

REPLACEMENT RULE FOR "ADDITIONAL THREE-POINT SHOTS ALLOWED" CHART - Additional three-point shots are allowed as follows (ignore the chart, found in the Super-Advanced rules in the instruction book): (1) Any time a team trails by ten or more points they may take unlimited three-point shots; (2) In the last ten minutes of the game if a team is trailing by more points than time left (for example, down by six with five minutes to go), they may take unlimited three-point shots, regardless of the score. Note that the term "unlimited" is still governed by the other rules of the game. In other words, a player must ALWAYS be positioned outside in order to take a three-point shot. Also, when using the solitaire rules to determine if a player should penetrate or shoot outside, you should place higher emphasis on these "unlimited" three pointer - the player should be able to shoot a three pointer without rolling to determine if he should penetrate (if the three-point shot is desirable, that is)

THREE-POINT FOUL SHOT ATTEMPTS - When a three-point shot is attempted and an X occurs on the dice roll, refer to the shooters Outside column to determine if a foul has occurred. Disregard any result other than a foul. If a foul occurs, roll the two white dice again and if a seven occurs the basket is good (possible four-point play). If any other number occurs attempt three free throws.

Please be advised that all additional players should be used in secondary roles.

For optimal accuracy during a season replay, players should be restricted to their real life number of games and minutes played. A great source for actual games and minutes played is <http://www.basketball-reference.com/>
