

1973-74 STRAT-O-MATIC 26 TEAM FOOTBALL ROSTERS

To insure realism, passing cards for second string quarterbacks who threw less than 100 passes were adjusted according to their past records or reduced below the records achieved by their teams' first string quarterbacks. To further insure realism, certain substitute running backs yards per carry average were reduced by their longest runs. We suggest that you throw few or no short or long passes to potential receivers who do not have any listing (completed pass caught) for that type of pass on their receiving cards.

Below are two listings indicating percentage of attempts a team rushed offensively (offensive rush percentage) and the percentage of attempts a team was rushed against defensively (defensive rush percentage).

Below is a coupon containing prices of miscellaneous Strat-O-Matic Football items. All are self-explanatory with the exception of the 15 nameless player cards. Nameless Player Cards are nameless cards fully computed and statistically setup. You will therefore be in a position to create cards for rookies and veterans not included on your team rosters. This is accomplished by designating a nameless card to be the equivalent in ability to an individual rookie playing a major role in the 1973 season.

ADVANCED GAME RULE CHANGES

ATTEMPTED FIELD GOAL RUNBACKS — If numbers 4, 5, 6, or 10 are rolled in a field goal attempt from the 33 to 42 yard line and failure results, the attempted field goal may be run back from the goal line by the #1 kickoff return back. Apply the same procedure to unsuccessful field goal attempts from the 43 to 47 yard line when numbers 4, 5, 6, or 7 are rolled.
PASS PREVENT DEFENSE ADJUSTMENT — If a pass is thrown to a linebacker's vacated flat pass zone (assume a white die reading of 1, 2, or 3), refer to the wrong column on both quarterback and pass receiver's cards instead of double teamed column on quarterback's card and guessed right column on pass receiver's card.
