With the purchase of the 56 additional players three extra players will be included free of charge.

On defense linebackers must be blitzing in order to be credited with a sack. On offense blocking backs cannot run the ball unless playing in a two or three back offense. They must then play the fullback position.

In a 3-4 defense substitutes designated as linebacker may play both inside and outside linebacker.

In all two running back formations, the blocking back is the running back not carrying the ball or who is not the intended pass receiver. If the quarterback carries the ball the blocking back is the higher rated blocker.

In the three wide receiver, one running back formation all references to blocking back should be made to running back instead.

Due to the numerous injuries that occurred in the 1985 NFL Football season, to insure realism we suggest that you adhere closely to the number of rushing and passing attempts by each player.

Please also note that extra point attempts and field goal attempts were combined for Ali Haji-Sheikh, Jess Atkinson and Eric Schubert of the New York Giants and Neil O'Donoghue, Jess Atkinson and Novo Bojovic of St. Louis.

On the specialist card penalty section, please note that a star has been substituted for an asterisk on all readings of offsides and opponent offsides. Also on the elementary defense cards, please note that a star has been substituted for the delta on all sack readings. Also note that long has been used instead of long gain on all receiver cards.

CHICAGO BEAR DEFENSE- Please note that the Chicago Bears may use the short yardage defense on any down. The rule is the same as advanced Rule VI with one exception: The Bears may call a pass or run defense. This is a suggested rule applying only to the Chicago Bears.

ABBREVIATIONS- long = long gain TE=Tight End

RULE REVISION

TWO TIGHT ENDS, TWO WIDE RECEIVERS, ONE RUNNING BACK - Replace one running back with a second tight end or blocking back. The opposing defensive right outside linebacker is responsible for covering the second tight end or blocking back. The remaining running back is designated as a fullback and is covered by the opposing defensive left outside linebacker. In addition the blocking back or second tight end's block ratings would be utilized for all readings of "offensive outside end" (left side) and blocking back (BB). If the blocking back or second tight end is the intended pass receiver and blocking back (BB) is the indicated pass blocker, an automatic sack occurs if there is an asterisk rated player on the defensive line of scrimmage. **There is no keying on running backs in this offense**, unless the defense is in a short yardage defense or the offense is within the opponents' 10 yard line. This rule revision supercedes the one found in the instruction booklet.

For those who want to switch from a 3-4 to a 4-3 defense or vice versa, please note the following rule addition: The switch in defense must be announced prior to the offensive coach's play selection and the defensive team must call a pass defense. Play would continue as normal except that in a running situation all readings on the defensive card requiring defensive ratings would result in the higher yardage figure being allowed. For example, a reading of DEF NT 0 or +5 would result in a 5 yard gain. In a pass situation, please refer to the applicable chart found to the right.

3-4 DEF	4-3 DEF
1. DLE	1. DLE
2. SECOND HIGH LB	2. DLT
3. DNT	3. DRT
4. HIGH LB	4. DRE
5. DRE	5. HIGH LB
