**MISCELLANEOUS RULES**

On defense, linebackers must be blitzing in order to be credited with a sack. On offense, blocking backs cannot run the ball unless playing in a two or three back offense. They must then play the fullback position. In a 3-4 defense substitutes designated as linebacker may play both inside and outside linebacker. In all two running back formations, the blocking back is the running back not carrying the ball or who is not the intended pass receiver. If the quarterback carries the ball the blocking back is the higher rated blocker.

In the three wide receiver, one running back formation all references to blocking back should be made to running back instead. Due to the numerous injuries that occurred in the 1995 NFL Football season, to insure realism we suggest that you adhere closely to the number of rushing and passing attempts by each player. The following players should be restricted accordingly: W. Floyd (SF) and N. Means (SD).

Dexter Carter is listed as a punt returner with New York (AFC) also even though he played the last 7 games with San Francisco. Nolan Harrison of Oakland should only play in 7 games. On the specialist cards, to better reflect a teams's ability, some teams have combined statistics for certain sections. On the specialist card penalty section, please note that a star has been substituted for an asterisk on all readings of offsides and opponent offsides. Also on the elementary defense cards, please note that a star has been substituted for the delta on all sack readings. Also note that LG has been used instead of long gain on all receiver cards.

ABBREVIATIONS - LG = Long Gain SG = Short Gain TE = Tight End

Please note that since Atlanta uses a four wide receiver offense, the defense must bring in an extra defensive back to relieve the free safety of coverage responsibilities. Then follow rules for three wide receivers, one running back offense found in the instruction book. Also note that Houston, Minnesota and Detroit frequently use four wide receiver offenses.

**INSTRUCTION**

**RECEIVER FUMBLES**

When the reading receiver comes up, roll all 4 dice instead black die reading is X, a fumble may occur (**this is in place** Refer to rolled white die number to see if a fumble has occurred the bottom of the Offensive Team Rating card. For example occurs, the team has fumbled. A white die number of 4, 5 or who has recovered it (game's past rule applies).

**SACK FUMBLE**

If a sack occurs, roll all 4 dice again. The red dice total will yard loss on the sack. If an X comes up on the black die (a occur. Refer to rolled white die number to see if a fumble has occurred the bottom of the Offensive Team Rating card. For reading of 2 occurs, the team has fumbled. A white die number dice to see who has recovered it (game's past rule applies) both advanced and super advanced play (rule 4 and rule 8)

**RULE REVISION**

**TWO TIGHT ENDS, TWO WIDE RECEIVERS, ONE RUNNING BACK** - Replace one running back with a second tight end or blocking back. The opposing defensive right outside linebacker is responsible for covering the second tight end or blocking back. The remaining running back is designated as a fullback and is covered by the opposing defensive left outside linebacker. In addition the blocking back or second tight end's block ratings would be utilized for all readings of "offensive outside end" (left side) and blocking back (BB). If the blocking back or second tight end is the intended pass receiver and blocking back (BB) is the indicated pass blocker, an automatic sack occurs if there is an asterisk rated player on the defensive line of scrimmage. **There is no keying on running backs in this offense**, unless the defense is in a short yardage defense or the offense is within the opponent's 10 yard line. This rule revision supersedes the one found in the instruction book.

For those who want to switch from a 3-4 to a 4-3 defense or vice versa, please note the following rule addition: The switch in defense must be announced prior to the offensive coach's play selection and the defensive team must call a pass defense. Play would continue as normal except that in a running situation all readings on the defensive card requiring defensive ratings would result in the higher yardage figure being allowed. For example, a reading of DEF NT 0 or +5 would result in a 5 yard gain. In a pass situation, please refer to the applicable chart found to the right.

Please be advised that only 3 names are missing from this year's card set. They are Keith Jackson - GB TE; Art Monk - Phil WR, and Marvin Jones - NYA LB.

<b>3-4 DEF</b>	<b>4-3 DEF</b>
