MISCELLANEOUS RULES

On defense, linebackers must be blitzing in order to be credited with a sack. On offense, blocking backs cannot run the ball unless playing in a two or three back offense. They must then play the fullback position. In a 3-4 defense, substitutes designated as linebacker may play both inside and outside linebacker. In all two running back formations, the blocking back is the running back not carrying the ball or who is not the intended pass receiver. If the quarterback carries the ball, the blocking back is the highest rater blocker.

In the three wide receiver, one running back formation all references to blocking back should be made to running back instead. Due to the numerous injuries that occurred in the 2012 NFL Football season, to insure realism we suggest that you adhere closely to the number of rushing and passing attempts by each player. Please restrict the following players to the number of games indicated: Bryan Bulaga - GB (9 games), Fred Davis - Wash (7), Louis Delmas - Det (8), Leroy Harris - Tenn (8), Percy Harvin - Minn (9), Todd Herremann - Phi (8), Antonio Holmes - NYJ (4), Maurice Jones-Drew - Jax (6), Dustin Keller - NYJ (8), Ray Lewis - Balt (6), Dwight Lowery - Jax (9), Fili Moala - Ind (8), Troy Polamalu - Pitt (7), Jake Scott - Phi (7), Richard Seymour - Oak (8), Terrell Suggs - Balt (8) and Charles Woodson - GB (7). Buffalo and most one back offensive teams frequently use three and four receiver offenses. Please do not start players designated as substitutes. Use them only in special situations, usually pass situations.

There has been a change in the maximum good chances for field goals from the first two distances. The maximum is now 2-11 good.

On the specialist cards, to better reflect a team's ability, some teams have combined statistics for certain sections. On the specialist card penalty section, please note that a star has been substituted for an asterisk on all readings of offsides and opponent offsides. Also on the elementary defense cards, please note that a star has been substituted for the delta on all sack readings. Also note that LG has been used instead of long gain on all receiver cards.

Abbreviations - LG = Long Gain SG = Short Gain TE = Tight End

INSTRUCTIONS ON USE OF X ROLL

RECEIVER FUMBLES

When the reading receiver comes up, roll all 4 dice instead of 2 dice to see if pass is completed. If pass is completed and black die reading is X, a fumble may occur (this is in place of a possible penalty - a penalty can only occur on first roll). refer to rolled white die number to see if a fumble has occurred. You would look at Receiver and QB Fumble Rating found at the bottom of the Offensive Team Rating card. For example, if a team has a fumble rating of 1-3 and a white die reading of 2 occurs, the team has fumbled. A white die number of 4, 5 or 6 would not yield a fumble. If a fumble occurs, roll 2 dice to see who has recovered it (game's past rule applies).

SACK FUMBLE

If a sack occurs, roll all 4 dice again. The red dice total will yield your loss. For example, if the red dice total 11, there is an 11 yard loss on the sack. If an X comes up on the black die (as it is the second roll, no penalty can occur) a possible fumble may occur. refer to rolled white die number to see if a fumble has occurred. you would look at the Receiver and QB Fumble Rating found at the bottom of the Offensive Team Rating card. For example, if a team has a fumble rating of 1-3 and a white die reading of 2 occurs, the team has fumbled. A white die number of 4, 5 or 6 would not yield a fumble. If a fumble occurs, roll 2 dice to see who has recovered it (game's past rule applies). There are no more automatic 9 yard losses. This rule applies to both advanced and super advanced play (rule 4 and rule 8).

DEFAULT TIGHT END CARD

The following Offensive Linemen had multiple plays at Tight End.

Mike Johnson (ATL), Jonathan Scott (CHI), Dennis Roland (CIN), Riley Reiff (DET), Tony Hills (IND), Guy Whimper (JAX), Donald Stephenson (KC), Eric Olsen (NO), Will Beatty, Sean Locklear (NYG), Tony Bergstrom (OAK), David Molk (SD).

Please note that all of these players should be assigned a backup position of Tight End - 4 and the default Tight End card to the right may be used for them.

RULE REVISION

TWO TIGHT ENDS, TWO WIDE RECEIVERS, ONE RUNNING BACK - Replace one running back with a second tight end or blocking back. The opposing defensive right outside linebacker is responsible for covering the second tight end or blocking back. The remaining running back is designated as a full back and is covered by the opposing defensive left outside linebacker. In addition, the blocking back or second tight end's block ratings would be utilized for all readings of "offensive outside end" (left side) and blocking back (BB). If the blocking back or second tight end is the intended pass receiver and blocking back (BB) is the indicated pass blocker, an automatic sack occurs if there is an asterisk rated player on the defensive line of scrimmage. **There is no keying on running backs in this offense**, unless the defense is in a short yardage defense or the offense is within the opponent's 10 yard line. This rule revision supersedes the one found in the instruction book.

For those who want to switch from a 3-4 to 4-3 defense or vice versa, please note the following rule addition: The switch in defense must be announced prior to the offensive coach's play selection and the defensive team must call a pass defense. Play would continue as normal except that in a running situation all readings on the defensive card requiring defensive ratings would result in the higher yardage figure being allowed. For example a reading of **DEF NT 0 or +5** would result in a 5 yard game. In a pass situation, please refer to the applicable chart found to the right.

3-4 DEF	4-3 DEF
1. DLE	1. DLE
2. SECOND HIGH LB	2. DLT
3. DNT	3. DRT
4. HIGH LB	4. DRE
5. DRE	5. HIGH LB
6. *	6. *

Please note that fumble chances for running backs are now different for guessed right and guessed wrong situations. Also, fumble chances on advanced defensive run cards are different depending on how many men are in the zone.

PISTOL RATED QUARTERBACKS - Certain Quarterbacks are rated to play the Pistol. Pistol Quarterbacks have End Run cards that are computed differently than traditional Quarterbacks (some of the yardage from the Guessed Wrong column is shifted to the Guessed Right column). In the 2012 season the following QB's are eligible to run the Pistol - Griffin III (WASH), Kaepernick (SF), Newton (CAR), Wilson (SEA),

When a Pistol Quarterback is in the game the Pistol rules will be in effect anytime the manager calls for the Shotgun. Pistol Quarterbacks cannot run the Shotgun, however there would be no strategic reason to do so as the Pistol rule expands upon the Shotgun rule giving you more flexibility without taking anything away.

The Pistol can be used with any formation (announce it with the formation). When it is used, it decreases all Pass Rush ratings by 1. When using the Pistol all runs are allowed except for End Runs by a Running Back. In addition, whether or not they are in the Pistol formation, Pistol Quarterbacks are allowed an additional 2 end runs per game above the number of End Runs normal Quarterbacks are allowed.

For more information on the shotgun rule, the pistol rule and end run limits please refer to the full set of computer game rules at the URL shown below.
